SIXTY-SECOND YEAR, VOL. 62, NO. 72
EDMONTON, ALBERTA—THURSDAY, MARCH 26, 1942
SINGLE COPY, 5 CENTS

DEFENCE MINISTER ANNOUNCES:

Planes To Form New Units

End Of A Nazi Plane Over Russia

OTTAWA, March 26.—(CP)—Practically all of the men who will comprise the 7th and 8th Army Divisions, formation of which has just been announced, will be men called up under the compulsory provisions of the National Resources Mobilization Act, Defence Minister Ralston said at a press conference today.

The minister also disclosed that nearly all the men needed to fill up the 7th division are now on hand and have received their four month basic training. He said most of the men in the 8th division, mobilized some time ago, are now called up to complete their training, and that those to go into the 7th and 8th divisions are of the class which cannot be sent overseas under the present law unless they volunteer.

A divisional commander for the 8th division will be appointed very shortly, said the minister. Organization of the divisional troops and divisional headquarters is under way.

PROGRAM STANDS

"Our overseas program for 1942 as announced by the prime minister in January stands," said Col. Ralston. "According to present intention there will be no change in the program. The formations being mobilized for home defence will not reduce the number of men to be sent overseas."

The 1942 overseas program calls for formation of a two-division army, the sending overseas of the 1st (Armoured) division and an other army tank brigade, and the provision of all the artillery.

CHURCHILL DECLARES:

Cannot Lose War Except Through Our Own Fault

Today's War Moves

By LOUIS F. KEMBLE
Copyright, 1942, by the British
United Press and the Edmon-
ton Bulletin.

The Japanese are developing a threat to India and to the communication lines in the Indian Ocean which has assumed new gravity by the turn of events in Burma and their occupation of the Andaman Islands.

Taking over the Andamans was no great military feat. The British reported they were indefensible and evacuated several days ago. The occupation was no taken care of, but obviously military in purpose.

The purpose could be to flank Calcutta from the Bay of Bengal side for the familiar "pincer" movement in conjunction with the Japanese.

Child Is Victim Of Diphtheria

First death from diphtheria this year has been reported to the city health board. Dr. G. M. Little announced Thursday. The victim was a three year old child living in the 10th avenue and 16 street district.

Dr. Little stated also that the case of suspected diphtheria reported two weeks ago had been found to be a case of acute inflammation of the air passages.

Commenting on the death Dr. Little said "it is needless and tragic for any child to die of this disease in this day and age."

He drew attention to the annual influenza campaign which is being conducted in city schools and urged all parents to go to their children's schools to receive the inoculation.

Dr. Little added that pre-school age children will be at the inoculation at schools if parents so desire, and that others can receive the inoculation at the city health office, Civic Block, at any time on any day.

29 Are Killed In Premature Dynamite Blast

EASTON, Pa., March 26.—(AP)—Hundreds of pounds of dynamite exploded prematurely at a limestone quarry of the Lehigh Portland Cement Company, four miles north of Easton, today, killing at least 29 men and shaking the countryside for miles around.

Investigators said the death toll may reach 32.

"The explosion was stacked on trucks and on the ground around the rim of the pit. Most of those killed were eating a mid-morning lunch nearby when the blast hit with devastating force about 9:30 a.m."

Sixteen other men were at work in the bottom of the pit and escaped injury.

The blast was felt as far away as 30 miles. Windows were shattered in homes and buildings in an 18-mile area.

Fourteen children in grade school half a mile from the scene were injured by flying glass from broken windows. Two were detained in an Easton hospital. Together with 56 classmates the children marched calmly from the building under the supervision of two teachers, who gave first aid to the injured in the school yard.

Synthetic Rubber Handed To Germans By American Firm

WASHINGTON, March 26.—(AP)—Thurman Arnold, assistant United States attorney-general, testified today that the Standard Oil Company of New Jersey had developed a synthetic rubber that was cheaper, better and more plentiful than the natural rubber and had turned it over to German interests before the United States entered the war.

Arnold said the senate defense committee has already passed a consent decree entered into yesterday. Standard has "held back even in this rubber shortage" in making the patents of the synthetic product available to American rubber companies.

Gen. Worthington Taken Command Of New Division

OTTAWA, March 26.—(BUP)—The new commander of Canada's Fourth (Armored) Division, Maj. Gen. F. F. Worthington, already has taken over his command and is laying the foundation for the army's new armored forces.

Gen. Worthington, who returned from overseas about 10 days ago, is in action somewhere in eastern Canada, working at a furious pace to build the elite division of the Canadian army.

Chinese Forces Enter Thailand At Two Points

LONDON, March 26.—(CP)—Reuters reported from Chungking today that two strong Chinese columns operating from Burma have invaded Japanese-occupied Thailand at two points. It credits the report to a Chinese military spokesman.

(The Associated Press correspondent in Chungking reported the army spokesman's only reference to this area was that "minor engagements also have occurred along the frontier of the Burmese Shan state and Thailand.")

NEW DELHI, March 26.—(CP)—"It is a Japanese press statement," said a United Nations line in Burma from south and east—indicating the use of parachuting to invade native settlements—was indicated by the British headquarters communique today.

From the south, a large "militarized force"—presumably including Thai or anti-British Burmese along with the Japanese—was reported within 40 miles of Prome in the push up the Travaddy Valley toward that town and the rich oilfields of inner Burma.

On the east, where a Japanese push over the Thailand border apparently is aimed at Mandalay, Chinese forces are said to have beaten back a force of 800 Japanese and Thai, north of Mong Hsu, inflicting heavy casualties and capturing a French officer.

Although the invaders have bypassed Toungoo, 150 miles inland from Rangoon and about 300 miles south of Mandalay, the war bulletin said Chinese forces there "are well dug in and will hold on until relieved."

Inspect Defences

OTTAWA, March 26.—(CP)—Defence Minister Ralston and Air Minister Power will leave Ottawa Saturday by air for British Columbia to inspect the Pacific coast defences, Mr. Ralston said today.

King To Speak

HITLER SOUGHT 750,000 TROOPS

Nazis' Intrigues In Balkans Prove Boomerang

By BREW MIDDLETON
LONDON, March 26.—(AP)—Nazi machinations to get at least 750,000 men from the Axis' Balkan joint partners to help fight Hitler's wars were charged today by British diplomatic sources who pleaded they had been misled by a boomerang.

Instead of getting men, said these informants with close con-

30 Enemy Planes Are Damaged Or Destroyed

LONDON, March 26.—(CP)—Thirty German dive bombers were destroyed or damaged yesterday in an air battle over the Mediterranean Sea, the British air ministry reported tonight. The R.A.F.'s Spitfires and Hurricanes worked such havoc among the attacking force, the ministry said, that at least half the raiders were not able to return home or else landed riddled by machine-gun bullets and the splinters of cannon shells.

ENEMY SHIPPING ATTACKED

Britain's Bombers Smash Heavily At Ruhr Industry

Council Order Negated By Alberta Court

By SIDNEY J. WILLIAMS
LONDON, March 26.—(BUP)—British bombers with a fighter escort attacked German shipping in Le Havre harbor this afternoon, it was reported tonight.

The attack was carried out by a force of about 100 Royal Air Force bombers, which included the heaviest of the metropolis and head toward the south coast.

By night, hundreds of giant British bombing planes rained hundreds of tons of bombs on Germany, including the heaviest of the metropolis and head toward the south coast.

For hours, the British planes, reported to number at least 200, hurled bombs and incendiary bombs in key industrial areas, mixing incendiary with heavy type explosive bombs, by the light of a spring moon.

Early reports of well-informed sources said the raid was a most successful one and the British bombers, which included the heaviest of the metropolis and head toward the south coast.

For days, conditions were such that bombing planes, had they taken off, would have been unable to land again because of the fog.

It was made known that the bomber command had its plans all charted to take full advantage of the good weather while it lasted and it was indicated that the night's attack was only the first of a series.

MINES ARE LAID

The air ministry's communique said the Royal Air Force "very heavily bombed" industrial areas. It was stated that the heaviest of the metropolis and head toward the south coast.

A dinner in Parliament House, the American commander declared his confidence in the unbreakable faith of a free man—in ultimate victory.

There is a link that binds our countries together," he declared. "I have come to a point in my career where I am convinced of the power of the free man to overcome all odds and all the blood of my countrymen."

At a dinner in Parliament House, the American commander declared his confidence in the unbreakable faith of a free man—in ultimate victory.

"I bring you tonight the unbreakable faith of a free man," Prime Minister John Curtin, who presided over the dinner, said.

Mr. Curtin declared Gen. MacArthur had the fullest confidence in the unbreakable faith of a free man—in ultimate victory.

Turkey's Envoys Are Called Home For Discussions

BERNE, Switzerland, March 26.—(AP)—Turkey has summoned its envoys to Ankara to discuss "important political problems" with the Turkish government, it was reported today by a dispatch from Istanbul.

No Compromise With Enemy Says Gen. MacArthur

CANBERRA, March 26.—(CP)—Gen. Douglas MacArthur pledged tonight that "There can be no compromise with the enemy. We shall go on and to this end I pledge you and the full resources of all the might of my country."

At a dinner in Parliament House, the American commander declared his confidence in the unbreakable faith of a free man—in ultimate victory.

Small Russ Subs Sink Nazi Ships

NEW YORK, March 26.—(AP)—New-type Russian miniature submarines "which can operate easily in narrow waters" recently have sunk at least 10 German ships off the northern Norwegian coast, the BBC reported today in a broadcast heard in New York by BBC.

THE WAR At A Glance

By The Canadian Press
BRITAIN—R.A.F. bombers manned by British and Canadian airmen attacked the Ruhr valley today, says Australia and India threatened, and Atlantic situation temporarily worse.

Australia—MacArthur confers with Curtin, declaring there can be no compromise; southwest Pacific area generally quiet, except for heavy Japanese air attack on U.S. held forts in Manila Bay.

Burma—Japanese pressure on Allied forces increased as they use paratroops to foment native uprisings; Chinese invade Thailand at two points.

Russia—German bombers strike at Murmansk, Allied supply port, using 11 planes while causing no damage; minor Soviet gains reported from various sectors.

Dominion Has Secret Weapon For Airfields

By R. T. BILHAM
EDMONTON Bulletin Ottawa Bureau
OTTAWA, March 26.—Questioned by the House of Commons today, the minister of defence, James Dugan, said that the Dominion has a secret weapon for airfields.

His description was completely off the record, but he added, that no other country had developed the safeguard involved experimentally by Canadian army engineers to deal with enemy aircraft that might try to land on an air base.

The question whether any new training would be carried out this year by Canadian troops, General Dugan said, was present at my conference with Hon. J. L. Ralston, said the minister.

He had been in the light house service as a lighthouse tender prior to being taken into the coast guard in 1910.

Built in 1911 she displaced 1130 tons and was 172 feet long with a 32-foot beam.

No More Yoga For Nova After Paying Visit To Races

NEW YORK, March 26.—(AP)—The oldest system of self discipline known to man lost its most famous apostle today. Standing on his feet instead of his head and munching a full meal of meat balls instead of gulping air, Sahib Lou Nova ended some five months of breathless suspense with the announcement that he had given Yoga back to the Hindus.

The big California heavyweight has shaved off his beard, cancelled the hour he devoted daily to contemplation of agony mystics and abandoned hope of some day winning the world title through activities purely mental. Last, but hardly least, he has said goodbye forever to that most delightful of all boxing inversions—the cosmic punch.

Nova reversed his decision at a racetrack. "My belief in the value of Yoga was somewhat weakened the night Joe Louis hit me on the chin, but I decided that it was only fair to give the mystics one more chance," he explained as he moved from the most belated to a plainer cause. "After all, the trouble in that fight could have been with my friends with the Hindu teachings."

"So I took the good book and went out to Hialeah Park down in Florida. I bought a program, took out my wallet and concentrated. I ate a couple of cups of air and went home each race. I was in the men's room and stand on my head for a few minutes. But I was too good. Either I haven't what it takes or Yoga hasn't. I never saw the cashier's window."

Nova finished the saucages and began working on some cold ham and beer. He said and spent three days at Hialeah, but every race on the program and picked only one winner. But that didn't do him a bit of good because he tore up the wrong ticket. So he began thinking and he concluded that Yoga and he were quits. But hold on, men, he has found something else.

"I'm a Novician," he expounded. "Isn't quite as profound as Yoga, it consists of only four things—hard training, hard punching, winning the heavyweight title and then retiring to Hollywood to make a few million dollars. Here, you don't try a few of those tucked beans."

East: Western semi-final, Port Arthur Beavers vs. Lehighville Maple Leafs at Calgary, first of best-of-five.
Western semi-final, Kimberley Dynamiters vs. Saskatoon Quakers at Saskatoon, first of best-of-five.
MEMORIAL CUP
West: None
East: Semi-final, Port William Hurricanes-Bangers vs. Winnipeg Red Devils at Portage, first of best-of-five.

Local Rifle Shots Win Expert Shield

MONTREAL, March 26.—(CP)—R. R. Kinner of the Medicine Hat Rifle and Revolver Club posted a perfect score of 6,000 points to win the expert shield of the Dominion Rifle Association, headquarters of the organization announced today. Mr. Kinner was the 10th marksman in Canada to post a perfect score. There are other Alberta marksmen who were awarded the shield, G. N. McDougall of "K" Division Rifle and Revolver Club, Edmonton; Eric Hocking, secretary of the Crossfield Rifle Club, Crossfield and J. Sorenson of the Greater Edmonton Rifle Association.

McGilligan, a member of the R.C.M.P. posted a score of 5,973 points. Hopkins, 5,887 and Sorenson 5,860. Minimum number of points required to qualify for the award is 5,860. Each marksman must shoot 20 targets from each of the standing, sitting and prone positions.

QUICK! SLICK! QUICK!
Minors Blades speed shaving — break all first year sales records for economy blades. FIT DOUBLE-EDGE RAZORS

Bearcats Tackle Leafs at Calgary

CALGARY, March 26.—(CP)—Sixteen in the party, including 13 players, Manager O'Leary and Trainer George Hamlin, Port Arthur Bearcats, Thunder Bay champions and conquerors of Winnipeg Navy, Manitoba title-holders, arrived in the city Wednesday morning.

A few hours after checking in they were on the arena, alternating on defence. Goalie Agur will centre a line with Syd Penn and Bob Brownjohn on the wings. Mike Shogaga will start on the wing. The Bearcats will be used for relief duty on the front line.

Players in the party were Russell Dettl, goalie; Bert La Prade, Bill McKinnon, Bobby Manahan, Raymond La Prade, defencemen; Steve Woschy, Wallick Kolioto, Albert Kelly, Bill McKinnon, Len McDougal, Don Gordon and Norm Wright, forwards.

High O'Leary, defence star of numerous Port Arthur teams, gave the Bearcats a hard workout for over an hour and the large crowd present were unanimous that Lehighville Maple Leafs would have to be at their best to turn a victory. Bearcats probably have more weight than the Leafs, but they appeared to be just as fast. Young Fredrick, goalkeeper of the champions, played here in series against the Leafs. The club of the Big Six League, guarded one of the nets during the practice.

THIRD LA PRADE
It will be noticed that a third La Prade has been added to the roster of the hatched city club this winter. He is Raymond, aged 21, who recently won Junior rank. Bert La Prade, the defence ace of the club, is 23. While regarded by Lester Patrick and Frank Patrick to be the outstanding amateur forward in Canada, he is 21. Patrick offered \$2,000 to sign up with New York Rangers last fall. In addition to the contract guaranteeing \$10,000, A. J. La Prade has signed with the Rangers, he eventually would have been turned over to Montreal Canadiens. Frank Patrick would also have liked to secure Bert La Prade for Canadiens, but like his brother, he refused to turn pro.

FOUR VETERANS
Of the present Port Arthur club roster, Norm Wright, Don Gordon, Bobby Manahan and Wallick Kolioto, played here in series against Red Lake, Trail and Calgary. Bill McKinnon, general manager, states that Bearcats have played a total of 24 games this winter. They won 17, tied one and lost two in the Thunder Bay League games with Port William. The club was ended on Feb. 16 and Bearcats were left almost one month before opposing Winnipeg Navy in the first round of the Allan Cup eliminations. The winning team named to secure a draw in the second round.

OFFICIALS NAMED
The Morrison, who has been officiating in the Saskatchewan Senior League for a great many years and Bob Davis of Winnipeg, are slated to referee.
Barring Pete Slobodan, defence star and playing coach, Lehighville players came through their series against Stampeder in good shape. Slobodan played but 12 minutes of the sixth game at Lehighville, and whether his injured leg will be in shape to permit him to play will not be decided until a few minutes before the game.

SASKATON, March 26.—(CP)—Kimberley Dynamiters, British Columbia senior hockey champions, arrived here late Wednesday and held an hours workout at the arena last night in preparation for the first game of the best-of-five western Canada semi-finals with Saskatoon Quakers tonight.
Gordon Wilson, centre, was the only player to play in the "diamond" practice. Owing to illness in his family, Wilson did not travel with the team but is expected today.
Coach Ralph Redding reported his club in good condition in spite of the long trip from the west coast and predicted a close series with the Quakers.

NASH IN GOAL
Redding plans to start Jack Nash, former Port Arthur Bearcat, in goal, with Lyle Swamy, Frank Wilson, Sullivan and Ben Barker on defence.
Benny Redisky will centre one of a leg line including Sammy Galt, at right wing and Lloyd Sanderson at left wing. Wilson will play the second line with Curly Hunt at right and Cliff Redding at left wing. Galt, Redding and Curly Hunt are the coach forwards. Ken Campbell is the spare goalie.

With the exception of Archie Wilder, who is doubtful after suffering a leg injury in the first game here last Friday, Quakers will dress the same players as in the six-game Saskatoon series with Moose Jaw Millers.
Norm Pickett will be in goal with

Victoria Dominos Capture B.C. Title

VANCOUVER, March 26.—(CP)—Victoria Dominos defeated Vancouver Tooles 36-31 here last night in the best of seven series for the British Columbia men's senior basketball championship and the right to enter the Dominion inter-provincial playdown and a shot at the Canadian title.

Dominos won the series four games to one and will meet Saskatoon Royal Canadian Air Force team in the western interprovincial playdowns if the R.C.A.F. club decides to continue the playdowns.

Girls' Basketball Starters and Reserves playing a return basketball game at McLaughlin gym tonight starting at 7:30. Blawie, who the first match.

Donny McLaughlin and George Youme will officiate.

Day. If the fourth and fifth games are required to decide a winner, they will be played here Thursday and Saturday, April 2 and 4.

Tiger Star Passes Out Tips Suspect "Bobo" Of Sending Up Few Trial Trade Balloons

LAKELAND, Fla., March 26.—(AP)—The frequent reports of a deal involving Louis (Bobo) Newsum are providing amusement for officials of Detroit Tigers, who suspect their showboat pitching star of passing out the trade tips himself.

The truth is that no proposition of any kind is pending at the moment for the big right-hander, manager Del Baker insists that he will not part with Newsum unless he gets a real major league ball player in return and general manager Jack Zeller says he has cancelled all offer about that. Newsum is a club that wants him at a church bazaar.

Newsum is only 21 years old and still capable of displaying the form with which he won 49 games in the three years preceding last season. He is a lot of condition physically and out of sorts mentally so that neither Tigers nor any of the eligible bidders care to count upon him as more than a chance at a church bazaar.

For winning a dozen games Newsum was paid as much or more than Bob Feller last year, probably \$32,500. He still was riding high and handsome on the magnificent showing he made in the regular season and the world series of 1940. He won the crown prize and the spoke only to the king, in other words to President Walter O. Briggs of the multi-millionaire auto manufacturer.

Zeller, an old-timer in baseball, is a sort of the ball club's bookkeeper and has reduced the salary scale, but where it can be paid for baseball receipts and not for automobile profits.

REPLACES STORIED BURMA ROAD

Chinese Are Building New Highway Across Himalayas

This is the route of the new road.

These pictures show how 150,000 Chinese—including women and children—are building a new highway across the Himalaya mountains, world's highest. The road will connect the Chinese end of the Burma Road, useless since the Japanese capture of Rangoon, with supply points in India. Besides supplying fighting China, the road will carry much of the war traffic necessary if a planned offensive against the Japanese islands is to be launched from India. These road-builders are our allies. And they are heroes, every one of them.

Highway is being chipped out of granite. From footing like this 7,000 workers have fallen to their death.

Yi tribesmen volunteer for work.

The road builders clean up before their evening meal.

Yi men still wear long hair.

Through the Himalayas the going is tough.

"Scorched Earth" In Action

Burning rubber made big smoke and smell in Malaya when British fired plantation in scorched earth policy as Japs advanced down peninsula toward Singapore.

Thanks To Canada's Women

A Canadian far carries a "bundle of warmth" aboard a Canadian warship. These warm woolen garments are most welcome by sailors on active service when North Atlantic gales howl. They are the result of the work of thousands of women throughout Canada.

Is This The World's Fanciest Shelter?

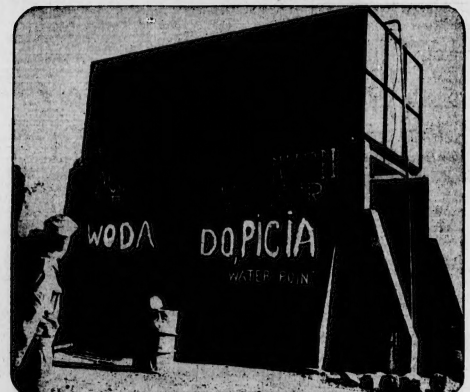

This was a swimming pool on the Hawaiian estate of Hubert K. Dalton, Rumson, N.J., millionaire. Today it's an air raid shelter where the Dalton boys believe they'll find safety from Jap bombers. Walls are 20 inches thick. Roof is covered with 20 inches of sand and, for an exotic touch, palm fronds. Shelter has rattan furniture, kitchenette and radio.

Armament Output Is Reviewed

Three Federal Cabinet Ministers see naval guns and field artillery gun carriages in the making at the plant of National Railways Munitions, Limited, when they visited Montreal. In the picture, from left to right, are: Hon. Angus L. Macdonald, Navy Minister; Hon. C. D. Howe, Munitions and Supply Minister; Hon. W. P. Mulock, Postmaster General; R. C. Vaughan, president of Canadian National Railways, who welcomed the visitors to the plant; D. C. Grant and N. B. Walton, C.N.R. vice-presidents.

It's A Prize In Any Language

In the arid Libyan desert water is a priceless possession. This water point has changed hands many times during the see-saw battle as the signs on the base of the tank indicate—Trinken Wassor, German; Acqua Potabile, Italian; Water Point, English.

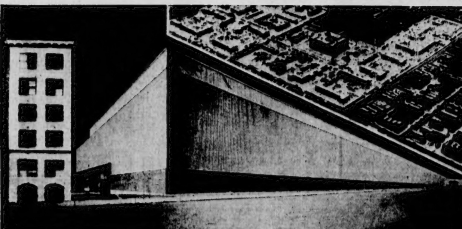

Canadian War Workers Take Aptitude Tests

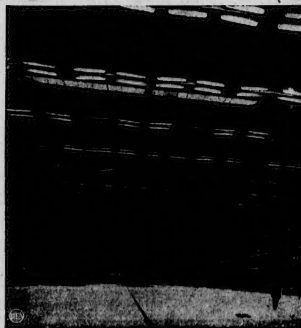

If a woman seeks employment at one of the rifle and machine gun ammunition plants somewhere in Quebec province, she does not simply walk in, give her name, and find herself hired. She must first be interviewed by a specialist. If she gets by this first step, she proceeds to an examination room, a corner of which is shown here, and undergoes various tests. The two tests illustrated in this photo might be called the jig-saw and mirror tests. At the right, squares are being fitted in their appropriate places, and at left, an applicant draws an object, only the reflection of which appears in a mirror, with both left and right hands. There follows arithmetical and classroom tests to determine ability, speed and discrimination.

HEART-WARMING PICTURE FOR ALLIES

New U.S. Plane Plant: 6 Stories High, 12 Blocks Long

These heart-warming pictures show just one of the new American warplane factories. Started less than a year ago "somewhere in Texas," it soon will turn out big bombers. Above: exterior of plant compared with six-story building (superimposed) and the equivalent of 15 city blocks. Right: factory's interior, air-conditioned, windowless and illuminated by fluorescent lighting.

Scholars Keep Fine Discipline In Fire Drill

Continued from Page Nine

man told me that the children had been warned there was to be a fire drill some time during the morning. In intermediate and elementary schools, the children are never given a hint that it is essential to give a partial warning to the youngsters, from 4 to 10 years old, in the elementary schools, during the winter time.

DRILLS EACH MONTH

Fire-drills are held each month and, in the elementary schools, they are generally held once a month, in order that the youngsters may still have their coasts on. This precaution is taken to make sure that the youngsters do not catch cold.

In the event of a fire actually occurring, to lock with coats, is the standing rule for all city schools, the authorities considering the saving of lives as infinitely more important than inflicting more punishment on the children.

BELL RINGS

After recess I watched the children going to their classrooms and waited in the principals' office for action. Presently, Mr. Russell came in and rang the bell, and the children went to the ground floor hall to take up a strategic position before the fire drill began.

There wasn't any fuss. As the drill opened the children filed out two by two from classrooms and waited with quietude for the long steps to their special doors. There was no talk or chatter, but obedient orderliness. A few of the older boys did a bit of "gamboling" down the stairs from the upper floors, but once they reached the ground floor hall they refrained from running.

RECEIVE TRAINING

The children have learned not to run because of a few minor accidents consequent on running and tumbling down the concrete steps during previous fire drills. They are quite a sight to see, the tiny boys and girls filing solemnly out of the Grade 1 room, while their teacher said, "Left, right, left, right" (to make sure they didn't run, she explained to me).

A delay occurred at one door. A leather strap which held the door was torn, due to the weather and the Grade 1 youngsters tried to use the strength to open the door. However, one of the boys in a senior class attempted to do the trick, and the kids proceeded on their way.

The snag in the door was reported to the janitor of the school—directly after the children received their classes, with instructions to have it repaired immediately. After each drill all difficulties are reported to the principal for correction.

HAVE SPECIAL DOORS

Each class has its special door, and the whole drill moved so smoothly it seemed possible that the youngsters could repeat their excellent performance in their sleep. No warning of the presence of an observer had been given them, but there is no possibility of their having put on a special showing for me.

Actually, the 87 students was not particularly good for this school, which has been cleared in 38 seconds. If the door hadn't jammed, I'm sure they'd have done the 38-second record again.

Largest factory employed in Australia is now the Federal government—11,700 in 1939, 30,000 in 1941—and 11,700 in 1939.

H.M.S. Duke Of York Unlimbers Big Guns

Britain's big, new battleship H.M.S. Duke of York, presented this dramatic picture as she fired a broadside of her 14-inch guns in recent test. This ship, as well as the King George V, may soon be locked in a battle of the giants with the German battleship Tirpitz now reported on the loose.

Council Sets 1942 Tax Rate At 51-1/2 Mills

Continued from Page Nine

made to the salary of the Mayor's secretary. There were many places that reductions in expenditure could be made, stated Ald. Douglas, who added that it was the commissioners' duty to effect the reductions.

ONLY POSSIBLE WAY

Commissioner Hodgson said the proposed 50 mill rate could only be met by reductions in salaries and pensions, while Commissioner Gibb stated that services had been considerably reduced to meet the 51 1/2 mill rate.

Mayor increased the plan, when the extension to the plant was completed, would permit greater profits from this utility, it was confident a balanced budget could be effected with a 51 1/2 mill rate.

Ald. F. J. Mitchell expressed satisfaction with the plan, but again emphasized that annual deficits on the street railway system should be eliminated.

Commissioner Hodgson intimated that at least the equal to last year would be placed to renew reserve account for the utilities. In 1941 more than \$600,000 went to reserve account, he said.

Commissioner Hodgson referred to the street railway five tickets last year, expenditures in the last five years this fare had cost the utility \$150,000. He was not in favor of increasing the 20 cent rate, but was prepared to recommend the best fare structure ever in existence on the street railway.

When the mill rate last year was set at 51 1/2, it was based on the estimate of the public as an indication of progress made in city administration that had it not

been for the payment of the cost of the plant to all city employees, mill rate of 48 or 49 1/2 mills would have been struck this year.

"The public should know that the employees are getting, without any cost-of-living bonus, as many salaries as they got in 1929, and it would not be inappropriate if the taxpayers were to reflect and compare their own incomes now with what they got in 1929," he stated.

BELOW 1929 MARK
The cost-of-living, as shown by the recognized standards in this country, is still five points lower than in 1929 when these basic salaries were fixed," continued Ald. Ogilvie.

"I do not know with what grace the people are going to accept 51 1/2 mills when they realize that without this amount they could not live," he said.

Formal approval was given to expenditures totaling \$4,641,412, to give a surplus of \$383.

During the discussion of the billing action estimates, it was pointed out by Commissioner Hodgson that steady reduction in operating costs had been made in this department.

Approval was given also to the creation of a \$85,000 fund for the building at the airport, part of the cost being met out of revenue this year.

Approval was given also to the creation of a \$85,000 fund for the building at the airport, part of the cost being met out of revenue this year.

Legal department expenditures for the year were approved at \$40,453. Last year actual expenditures in this department amounted to \$40,811. Salaries for 1942 were approved at \$4,000,000.

Net expenditures authorized for the treasurer's department totaled \$10,842, compared with an actual expenditure last year of \$10,145.

Salary account for the department amounted to \$10,346, but credits received from other departments totaled \$10,346, leaving a balance of \$0.

Printing, postage, stationery, telephone and miscellaneous costs of the department were set at \$1,208.

Freight and stationery department estimates were approved at \$4,001. Salaries in this department amount to \$2,848.

BILLING SECTION
Expenditures of \$60,520 were authorized for the billing section. Last year the actual expenditures in this department were \$61,100.

Salaries paid in the department amounted to \$49,473, printing, postage and stationery, \$4,206; transportation, \$1,206, and miscellaneous, \$1,206. Total, \$56,091.

Pension fund, group life and unemployment insurance costs in the department are estimated at \$3,870. Of the total cost of this department \$23,780 is charged against the waterworks, and \$3,140 to the electric light department.

POWER ESTIMATES
Estimated revenue from power sales is set at \$1,142,720 with expenditures expected to reach \$777,780, to give a surplus of \$364,940.

1941 revenue totaled \$1,047,318, and expenditures \$682,062, for a surplus of \$365,256.

Commissioner L. J. Gibb said that the 1942 surplus was estimated to be approximately \$330,000. He said that the 1941 surplus was not anticipated of revenue this year. The decline in estimated surplus was due to a larger reserve account provision.

PLANT EXTENSION
Mr. Gibb said that \$220,000 was being set aside for plant extension against \$187,274 last year, an increase of \$32,726.

Control approved expenditure of \$27,428 from renewal reserve account. These include \$118,206 payment on boilers, \$60,000 on turbines, and \$101,278 on installation of auxiliary in connection with the \$730,000 extension to the plant now in course of construction. Approval was given also for the construction of a clear-water basin at an estimated cost of \$50,000.

VITALITY NEEDED
Supt. R. G. Watson said this basin was a vital necessity to take care of the great extension water use in the city. He said there had been an increase of 27,000,000 gallons in 1941 over the 1940 consumption. Causes of this increase, he said, were greater consumption by the railway, military establishments, working plants, and a general increase in domestic consumption.

through the popularity of the soft water now being supplied.

A surplus of \$23,120 is expected in the waterworks department this year compared with an actual surplus of \$25,000 in 1941.

Total revenue in the department is expected to reach \$675,000, and expenditures \$682,510. In 1941 actual expenditures were \$670,780, and revenue \$680,785.

Superintendent W. R. Mount said meters may be pretty scarce here, but so far new supplies have been readily available.

COST OF REBATES
It is estimated that summer rating rebate will cost the department \$2,700 this year compared with \$4,528 in 1941, and consumer discounts \$10,000, compared with \$23,500 last year.

Answering Alderman Guy Patterson, Mr. Mount said he had only one complaint from a user regarding the soft water had caused clogged hands.

Approval approved the expenditure of \$245,000 on permanent improvements to be made through the engineer's department.

\$40,000 ON WALKS
Of this amount \$40,000 will be spent on walks and crossings, of which \$7,000 will be chargeable against property and \$33,000 against the city at large.

Grading, travelling, boulevarding, curbs and oiling will cost \$13,000. It is proposed to spend \$20,000 on the new bridge over the Bow river from the Dawson bridge to 104 street, and also \$10,000 to surface airport roads.

Paving program for 1942 will cost an estimated \$111,000. The project is undertaken in the paving of 116 street from Jasper avenue to 104 avenue.

An amount of \$20,000 was set aside for the redecking of the Dawson bridge.

Sewer and drainage construction will cost \$27,300, and a water line to Mount Pleasant cemetery, \$4,000.

Estimated expenditure of \$17,000 for the installation of traffic lights along the 102 street on Jasper avenue. Installation of these lights was advocated by Ald. H. D. Aitken, but he agreed that their installation could be left over until next year.

Royal Alexandra and Isolation hospitals grant was fixed at \$1,000, compared with \$850,000 last year.

Estimated expenditures in both institutions this year are \$465,460, compared with \$461,118 in 1941. Revenue this year is expected to be \$465,460 compared with \$450,387 in 1941.

The Edmonton Public Library Board grant was set at \$50,000.

Salaries paid in the authorized part of a special grant to the Library Board for cover-over obligation payment to employees, was set at \$1,000, compared with \$1,000 last year.

Enumeration will start on April 13

Enumeration of electors in Edmonton East and West Federal ridings for the April 27 plebiscite will start on Monday, April 13, it was announced Thursday by returning officers T. H. Wells and H. H. Wells.

It is anticipated that 15,000 voters will be registered during the enumeration period.

The returning officers are now busy locating and establishing polling stations in the two ridings and also with the appointment of the enumerators.

In Edmonton East riding there will be 83 enumerators, one for each poll, and in Edmonton West riding 69.

Mills will open on election day at 8 a.m. and will remain open until 8 p.m. Advance polls will be open from 10 a.m. to 10 p.m. Thursday and Saturday, April 23, 24 and 25.

Where population is extremely heavy polls will be sub-divided, and it is anticipated there will be 89 polling sub-divisions in Edmonton West, and 133 in Edmonton East. This will increase the number of 215 deputy returning officers and poll clerks.

Persons over 21 years old who are British subjects will be listed by the enumerators as qualified to vote in the plebiscite.

Girls At A.O.S.
Relieving men for heavier duties in the war, a group of eight women have been employed by Canadian Airways Training Ltd. at No. 2 Air Observer School (R.C.A.F.). Two of the women are radio operators, and the rest are employed as assistants serving aircraft used at the school to instruct student-observers.

ANNOUNCEMENT IN COMMONS

New Mobile Divisions To Defend Canada Coasts Says Prime Minister

OTTAWA, March 26.—

(CP)—Mobile reserves consisting of two divisions will stand behind Canada's coastal defences as an added precaution against invasion when plans for expansion of the Canadian army, outlined Wednesday by Prime Minister Mackenzie King in the House of Commons, are placed in effect.

Mr. King announced the new divisions, the 7th and 8th, will be mobilized to aid the work of the six divisions now in the army at home and overseas.

At present the overseas forces consist of four divisions, three of infantry and one armored, in Canada. An infantry division, the 4th, is being converted to an armored division for dispatch overseas to complete the 1942 army program of making an overseas army of two corps—consisting of three infantry divisions and an army tank brigade, the other of two armored divisions.

Mr. King's statement was his second on the armed forces this session.

Neither the probable location of the new divisions after their creation nor the present location of the 4th division are disclosed because the distribution of Canada's home defence forces now has become a matter of military secrecy.

"The additional formations will add depth to our existing and contemplated defences with special reference to the east and west coasts," said the prime minister.

From this statement it was assumed Canadian defences are being planned on the basis of experience in creating defence forces for the British Isles, in which Lt.-Gen. A. G. L. McNaughton, Canadian Corps commander, has had a say and of which the Canadian army forms an important part.

Those defences are understood to include the maintenance of formidable, highly-mobile, hard-hitting forces behind the defence of the coast areas.

In light of the value attached by the army so far to overseas experience, it is probable officers will be recalled from Great Britain to command the new divisions, and perhaps the brigades in them.

Thus the expansion of the home defence forces will probably result in a couple of overseas brigade commanders being raised to rank of major-general, to command the new divisions, and perhaps some overseas battalion commanders coming back to command brigades.

Many new units
Mr. King said that since the outbreak of war with Japan nearly a dozen new infantry battalions as well as many new anti-aircraft and

coast defence batteries have been mobilized.

He did not say whether the infantry battalions already mobilized will go into the new divisions or stand as additional forces.

As rapidly as equipment becomes available, he said, coast defence and anti-aircraft defences are being strengthened.

The prime minister made no reference to the role of the reserve army in Canadian defence nor to its relations to the new active formations.

Earlier this year a start was made in organizing reserve units across Canada into brigade groups with view to giving them more training and equipment in order to make them available for service as second-line home defence forces.

Yards Going On Seven-Day Week
OTTAWA, March 26.—(CP)—Labor Minister Mitchell Wednesday advised that Canadian shipyards would soon be on a seven-day work week as construction of merchantmen and ships of war was hastened.
